Paying close attention to the potential of e-business channel

- Current online sales market in China is still mainly focused on discount sales with relatively low profitability for the vendors
- Except for out-of-the-season products, Lilanz and L2 products and prices offered on the online sales platforms are the same as those in the brick-and-mortar stores.

Sales Channel Management

- Monitor sales channel through the ERP system connecting to all stand-alone stores
- Encourage distributors to clear old inventories through:
 - Operating discount stores prior to store renovation
 - Setting up temporary promotion counters in department stores

Enhancing the management skills and efficiency of distributors

- Provide training for management teams of distributors in the second half of 2014.
- Training will cover the upgrade and planning of distribution channels and the planning for the transformation from wholesale to retailing for brands.

Product Design and Development

Provide more diverse products to target consumers

LILANZ

- International R & D team headed by a group of designers from abroad set up in 2013:
 - Bring in new ideas by adding innovative and international taste and elements to the brand's fashionable yet simple product style and designs
 - A newly recruited accessory designer **LILANZ制**郎 has been added in the first half of 2014
 - Local design team blended new design ideas with knowledge on local market under the leadership of the chief designer from abroad, produces better product designs

L2

- The restructuring of product line completed in 2013
- now mainly focuses on trendy casual wear which better suits the needs of target consumers.

- Increase the proportion of original products in sales, long term target of 70%
- Promote individuation in its product designs and enhance product differentiation
- Help to control costs

Marketing and Promotion

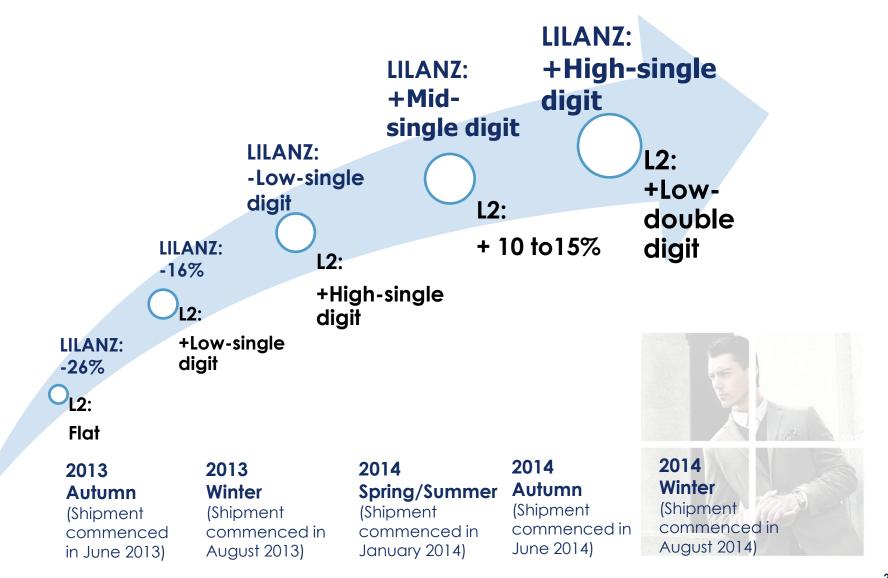

- A micro film, starring Chen Dao Ming, the spokesperson of LILANZ was made and is planned to be officially broadcasted in September or October this year both online and on television
- Placing soft-sell advertisements in magazines and newspapers
- Setting up billboards in a dozen of airports in China and the airport in Bangkok, Thailand

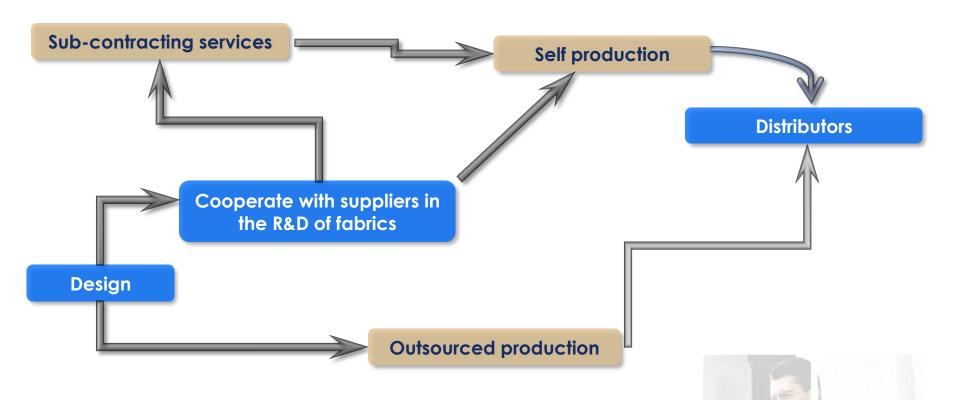

Trade Fair Results

LILANZ 利郎

Production and Supply Chain

- Continued to improve its supply chain management and identify more costefficient fabric suppliers and processing plants
- Shared the benefits of its improved supply chain management with consumers

Prospect and Strategies

Prudent and Flexible Operation Strategy

Enhance core competitiveness

- Continue with the policy of "improving product quality without raising the price" and enhance products' value for money
- Increase proportion of original products in sales and enhance product differentiation

Increase market share

 Continue to leverage its brand equity, capitalize on opportunities that arise from industry's restructuring, further consolidate and increase market share

Realign retail network

- Continue to realign "LILANZ" stores of low efficiency and maintain a conservative approach to new store openings for FY2014
- Expand the "L2" retail network with a net increase of 20-30 stores in FY2014
- Renovate 700-800 "LILANZ" stores for FY2014

We are cautiously optimistic about the prospects for the second half of the year, expecting continuous growth at 2015 Spring/Summer Trade Fair, and low-to-mid-single digit SSS growth
